

BIS 15L Project Evaluation

Directions: Please fill out the form below. Your responses will be kept confidential. Your candid evaluation of **yourself** and of **your group members** is appreciated.

Please email the completed form to Prof. Ledford (jmledford@ucdavis.edu) by 5:00p on Monday, March 18.

Your name: Mohit Badhan

Group #: 3

Project Title: 2021 World Happiness Report

1. What are the names of your other group members? Next to each name, please state their primary responsibility.

Tian Xia- made shiny app, came up with ideas of what to do with the data and what to talk about, and finding the data!

2. What was your overall experience with the project? Do you feel like it was a valuable learning experience? Were there any problems?

My overall experience was great and would definitely recommend it for future use! It was a valuable learning experience it allows us to freely use R in the ways you have taught us to present data and to challenge ourselves! There were no problems!

3. Did all members of your group contribute evenly? Please explain.

Yes, Tian was an amazing partner and we had time conflicts and she was still able to dedicate time for the project! She helped with finding the data, making not one but 2 different shiny apps, and helped making the slides so all group members contributed evenly!

4. If you had to give yourself a grade (A-F) on this project, what would your grade be? Please explain.

I would say an A, we were given only a 5-minute time which is understandable given how many groups needed to present but I think with the time given we were able to explain most of the stuff about our data and what we found interesting about it! Our data had a lot of countries so the shiny app caused some difficulties but with your help we were able to find a solution for it as well!

5. Do you have any other questions or concerns?

I have no other questions or concerns, just want to say thank you for an amazing quarter and helping me whenever needed! Thank you for especially understanding last week (week 9) when I could not make it to class due to some emergencies!
